EXPERIENCE:

As a Web Developer at ParadiseSolution.com, I specialize in full-stack development using Next.js, React.js, Node.js, Express, and SQL. I develop custom web solutions, optimize performance, ensure responsive design, and integrate third-party APIs. I focus on SEO and web accessibility, adhere to Agile methodologies, and employ Git for version control. My role involves close client collaboration to deliver tailored web applications that enhance user experience and functionality. My proactive problem-solving skills ensure optimal performance and minimal downtime, contributing to the success of numerous projects and delivering exceptional digital experiences.

SKILLS:

Expertise: HTML | CSS | Bootstrap | Tailwind | Firebase | ES6 | React | MongoDB | React Router | SQL | Nextjs

Comfortable: JavaScript | REST APIs | ExpressJS | JWT

Famillar: Node | C | C++

Tools: VS code | Git | Figma | Netlify | Vercel

OS: windows 10/11 , Ubuntu Linux
